Operations Desk

Primary Industry Specializations

- Oil & Gas Upstream, Midstream & Refinery Turnarounds (ASME, API certified)
- Civil Infrastructure, Mega-Bridges, Metro Rail & Tunnelling (Saudi Aramco / NEOM standard)
- Offshore & Marine Fabrication (6G/TIG/FCAW AWS-qualified welders, GWO wind technicians)
- Industrial Automation, PLC Engineering & Substation Electrification
- Heavy Rigging, Mobile Crane Operations (100T+) and Critical Lifting Supervisors
- Integrated Camp Management, Medical Support & Turnkey Logistics

Global HSE & Compliance Protocols

Every operative undergoes multi-stage biometric vetting, background security clearances, medical fitness testing (OGUK / GCC Approved Medical Centers Association), and rigorous practical trade examination in certified technical workshops prior to mobilization.

EQUIPWORKFORCE GLOBAL · CAPABILITY OVERVIEW

Turnkey Workforce Categories

Structural & Pressure Welding

6G SMAW, GTAW, FCAW, SAW, ASME Sec IX & AWS D1.1 certified welders.

Pipefitting & Rigging Specialists

Hydraulic torqueing, flange management, certified riggers (OPITO / LEEA).

Electrical & Instrumentation (E&I)

ATEX / CompEx certified technicians for hazardous offshore and petrochemical environments.

Heavy Plant & Mobile Crane Operators

Third-party certified operators for mobile, crawler, and tower cranes with valid GCC licenses.

Turnaround & Shutdown Taskforces

Rapid deployment squads (100–1,000+ men) for time-critical refinery maintenance overhauls.

Standard Deployment Timeline

Day 1–2	Requisition Analysis & Candidate Shortlisting from Pre-Vetted Database
Day 3–4	Client Technical Interview, Practical Weld / Trade Test & Biometric Confirmation
Day 5–7	Medical Clearance (GAMCA/OGUK), Police Attestation & Visa Processing
Day 8–10	Travel Logistics, Camp Allocation & HSE Induction on Project Site

Headquarters & Regional Operations
